

Association „PRIJEŠKA LUZARICA“ was established on October 18, 2022, to protect our local cultural heritage, with the main goal to organize restoration of the old parish church Our Lady of Rosary (Gospe od Ružarija) in Preko, on the island Ugljan, Croatia. The old parish church in Preko was established in the second half of 18th century, and its bell tower was built in 1844. It was established on the previously existing church, St. Andria that was there during the medieval times. In the church there is a baroque singing area with marble columns, and three altars from the second half of 18th century. The old parish church has been a holy place of many baptisms, weddings, as well as funerals for generations. This church is a symbol of catholic faith and tradition and represents the most important historic building in Preko. Unfortunately, this old parish church has been neglected and needs reparation and restoration. Together with our parish priest don Filip Kucelin and expert team of the Conservation Department in Zadar the Association prepared a plan for the old church restoration, starting first with the church bell tower restoration, which implies detailed reconstruction of the stone walls, lighting rods, hydroisolation, and inside tower walls. Approximate cost for the structural renovation of the church bell tower was estimated to be 65,000 Euros.

This year, 2024, is the 180th anniversary of the church bell tower, and we are inviting you to join us in helping to rise funding for the church renovation.
